A CURE FOR DEBILITY

STRONG PRAISE FOR DR. WILLIAMS' PINK PILLS.

A Reliable Remedy for the Weak, Ailing and Bloodless of Both Sexes.

When the body is weak, and the blood thin it is sometimes difficult to find the cause unless a wasting illness has preceded, or the sufferer happens to be a girl on the verge of womanhood.

Obscure influences, something unhealthful in one's surroundings or work, may lead to a slow impoverishment of the blood and an enfeeblement of the whole body. When a serious stage has been reached there seems to be nothing that will account for it.

In such cases a complete change of climate or of work will sometimes effect a cure. It takes a long time, however, and for the great majority of sufferers is out of the question.

Mr. C. E. Legg, of Tipton, W. Va., has found a successful method of treating weakness and bloodlessness. He says:

"I used Dr. Williams' Pink Pills for weakness caused by a lingering malaria fever that began in the spring of 1886. The worst effects of this were indigestion and a bad state of my blood. I was generally, as the doctors say, 'People generally would say that I didn't have blood enough, or that I didn't have the right kind of blood; mine was too thin. My kidneys and liver were out of order. I was badly annoyed by sour risings from my stomach. There was a good deal of pain, too, in my back and under my right shoulder blade.'"

"How long did these troubles last?" "For over two years. For four months of that time I was under the care of a physician, but his medicine did me no good. Meanwhile I learned of the cures that had been wrought by Dr. Williams' Pink Pills."

"You owe your cure then to these pills?" "I certainly do, and I also know that they are helping others to whom I have recommended them. They have real merit and I know of nothing that would take their place."

The reason why Dr. Williams' Pink Pills effect such remarkable cures is because they purify and enrich the blood which nourishes the nerves and gives strength to every organ of the body. They have cured obstinate cases of neuralgia, nervous prostration, sciatica, insomnia, as well as of partial paralysis.

April 5.—Geo. de la Vergne, Mrs. Stoddard and child, W. D. McBryde, Theodore McLeod, C. M. Lovestead, Miss C. Kobbe, Mrs. H. Harrison, A. R. Gurrey, Miss Dutro, M. B. Komatsu, C. E. Hollinger, J. Cassidy, Geo. Mundon, C. H. G. Brown, M. R. Jardin, Miss E. J. McLane, Miss M. Sharpe, J. McClellan.

A WONDERFUL DISCOVERY.

This is the age of research and experiment, when all nature, so to speak, is ransacked by the scientific for the comfort and happiness of man. Science has indeed made giant strides during the past century, and among the—by no means least important—discoveries in medicine comes that of THERAPION.

This preparation is unquestionably one of the most genuine and reliable Patent Medicines ever introduced, and has, we understand, been used in the most famous hospitals by Blood, Boston, Robert, Velpau, Maternow, the well-known chemist, and indeed by all who are regarded as authorities in such matters, including the celebrated Lillman, and Roux, by whom it was some time since uniformly adopted, and that it is worthy the attention of those who require such a remedy we think there is no doubt. From the time of Aristotle downwards, a potent agent in the removal of those diseases has (like the famous philosopher's stone) been the object of search of some hopeful, generous mind; and far beyond the mere power of such could ever have been discovered.

transmuting the base metals into gold is surely the discovery of a remedy so potent as to replenish the falling energies in the one case, and in the other so effectually, speedily and safely to expel from the system the poisons of acquired or inherited disease in all their protean forms as to leave no taint or trace behind. Such is the New French Remedy THERAPION, which may certainly rank with the discoveries of our day, about which no litigation and noise have been made, and the extremely and ever-increasing demand that has been created for this medicine wherever introduced appears to prove that it is destined to cast into oblivion all those questionable remedies that were formerly the sole reliance of medical men.—Diamond Fields Advertiser, Kimberley.
